EVERGREEN ENGINEERING COMPLETES HEMCON'S R&D FACILITY PROJECT

(HILLSBORO, OR) August 21, 2006 – Evergreen Engineering today announced that it has completed the design and construction of HemCon Medical Technologies, Inc.'s R&D Facility Expansion and Cleanroom located in Portland, OR. Evergreen's successive familiarity with HemCon's facility, personnel, and operations allowed the firm to provide seamless full-service design/build capabilities.

Steve Cruft, principal and construction manager of Evergreen, worked extensively with HemCon in developing the latest design/build processes while understanding intricacies of the project. "With such a high impact on the ability of HemCon to continue their development of new products, project success and timing were imperative," Cruft stated. Other HemCon projects led by Cruft include the main facility/office expansion and construction, which involved the construction of the 4,500 sq ft production cleanroom and installation of the process equipment. Evergreen has also been instrumental in providing HemCon with ongoing facility improvement projects and maintenance support to the facility over the last four years.

HemCon, founded in 2001, develops, manufactures, and markets innovative technologies to control bleeding and infection resulting from trauma or surgery. HemCon products are designed for use by military and civilian first responders as well as medical professionals in hospital, dental, and clinical settings where rapid control of bleeding is of critical importance. HemCon's manufacturing and corporate headquarters are located in Portland, OR.

Evergreen, established in 1985, is an engineering and construction firm serving various industries such as bioscience, clean manufacturing, forest products, industrial manufacturing, metals, microelectronics, and semiconductor. With over 90 employees consisting of technical engineers, construction managers, and administrative staff, along with seven principals guiding overall success, Evergreen has a reputation of listening to clients' objectives and providing personal attention to those needs. Evergreen has offices in Eugene, OR; Hillsboro, OR; Atlanta, GA; and Santa Clara, CA with clients throughout the United States and Canada.
